Subject: Pentel Pen N60

Just a comment on your Permanent Marker N60.

What a remarkable pen...

I purchased a box of 12 of these pens. We own a business and are rebranding, as part of this rebranding we had to remove all reference to our previous franchise groups name. This involved crossing out the old name with the marker. The name appeared on stickers made of plastic / flat paper / glossy paper and cardboard, we had in total approx 40,000 sticker to cross out in all.

I started with another name brand of marker and after approx 400 stickers the pen dried out, hence the purchase of 12 of the Pentel pens.

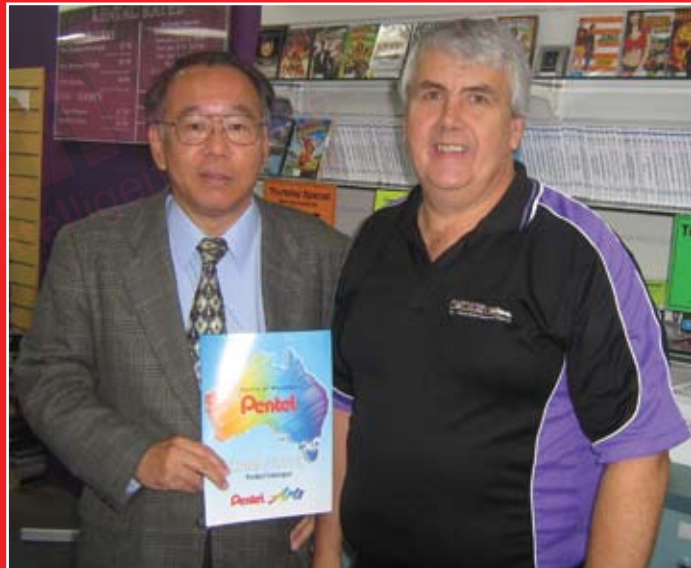

To my amazement we have now finished all 40,000 items and we are still using the 1st pen!!!, and it is still working perfectly. The felt tip is a bit raggy but it's still going strong.

I will have to put the remaining 11 pens in my will, as I will never use them in my lifetime.

Fantastic markers. Great product.

Regards

Grant Wearne
